INNOVATION WITH CERTAINTYSM

**in Optical Technology and
Product Development**

CONCEPT TO COMMERCIALIZATION....SEAMLESSLY

TECHNOLOGY DEVELOPMENT

- Photon Migration Simulation
- Near Infrared Spectroscopy
- Physiological Signal Analysis
- Advanced Digital Filtering Techniques
- High-Res Analog and Digital Signal Processing
- Proof-of-Concept Prototyping
- Clinical Validation Support

PRODUCT DEVELOPMENT

- Medical Device Focused
- Milestone-centric: On-Time and On-Budget Results
- Turnkey and Team Augmentation Project Teams
- ISO 13485 and FDA-compliant Design Controls
- Program Management Emphasizing Business Objectives
- Manufacturing and Production Support Expertise

Do you face similar challenges? Our team of experts, unique tools and proven approach can assist your team with turnkey development, team augmentation and/or product support. Please contact us at info@rbccorp.com to learn more.
